

National Traffic Management FAA Course 50113

This seminar-style course involves a diverse group of aviation professionals in lectures and open discussions of current traffic management philosophy, as well as exploring the roles and relationships of the various entities influencing the daily operation of the National Airspace System. Participants will receive informative briefings from a variety of subject matter experts, review operational scenarios, and visit the Air Traffic Control System Command Center operational floor for familiarization.

If you have any questions concerning the course please contact Cindy Glascock, 540.422.4503, Cindy.Glascock@faa.gov.

ATCSCC Security and Parking

FAA employees will park in the visitor's lot, and proceed to sign in at the guard house, receive a "No Escort Required" badge and be directed to the facility. Please use inside gate at all times. If you are not an FAA employee, you will park in the visitor's lot, sign in at the guardhouse, receive an "Escort Required" badge and be escorted to the facility door to meet your POC. Due to limited parking, please carpool whenever possible.

Thank you.

We do not have a cafeteria at the ATCSCC. We have vending machines with cold drinks and snacks. There is a small cafeteria next door at the Potomac TRACON.
