### **Workshop Description**

This workshop is designed to explore the practical application, techniques and best practices of Air Traffic Flow Management. Participants will receive informative briefings and engage in open discussions with subject matter experts, review operational scenarios, and be afforded the opportunity to visit the Air Traffic Control System Command Center operational floor for familiarization. The principal methods of instruction are lectures supplemented by Traffic Flow Management System (TFMS) tools and discussion.

### **Target Audience**

This ATFM workshop is designed for FAA personnel. Candidates for this workshop may include CPC's, staff specialist, FLM's, TMU personnel, and other personnel performing air traffic flow management related functions within the NAS.

To register please contact [Ed.Corcoran@faa.gov](mailto:Ed.Corcoran@faa.gov), 540.422.4547

### **Location**

David J. Hurley Air Traffic Control System Command Center (2<sup>nd</sup> Floor "Clipper Room")  
3701 Macintosh Drive  
Warrenton, VA 20187
